

OUR HISTORY

Over the last 15 years, ARTCOR has dedicated its good energy to the world of events.

And our work extends far beyond just offering services or products. We do all the bar management, simplifying the complex process that organisations end up not giving due importance to. With our accumulated know-how, we are sure that our team can provide the right response, guaranteeing a solid source of income for our clients!

With a vision focussed on quality, we have taken part in hundreds of events, marked by challenges that we face with courage and determination, always with the aim of presenting innovative solutions that have an impact on the community.

In 2024, we were honoured with the Best Service Provider Award, a recognition that filled us with pride and reinforced our passion for what we do. More than a victory, it was the validation of years of dedication, innovation and commitment to transforming experiences into perfect moments.

With this nomination, we emphasise the emotional impact as a direct reflection of our work of excellence.

Thank you for being part of our journey!
